Every year, as the design industry transplants itself to Italian shores, it can be a struggle to take in the best of all of the exciting products, exhibitions, and collaborations launching at the industry's hottest furniture event, the annual *Salone Internazionale del Mobile* in Milan. The 2015 show runs April 14-19, and includes the 28th edition of EuroLuce, the biennial exhibition devoted to the world of lighting. Don't despair, *Interior Design* is here to help with a sneak preview. From the Bouroullec brothers' latest collaboration to an entirely *too* transparent closet, a Finish design house's ideas on urban living, and gradient color and bent wood (both major trends!), here are 15 of the most exciting product launches and events happening around the city this year.
